

LOUISIANA STATE UNIVERSITY IN SHREVEPORT

BSU Holds Banquet, Convention

The Baptist Student Union held its annual convention Oct. 11-13, at the Horseshoe Drive Baptist Church in Alexandria. The convention followed a banquet held Thursday, Oct. 10 at the BSU Student Center on Woodlawn St. in Shreveport.

The convention convened Friday night, with a speech by the president of the convention, Ronnie Stutes, a student at the University of Southwestern Louisiana. Saturday, the students attended a seminar on the theme "Everybody is Somebody." One speech was presented by Rev. Harry Rowe, from Sydney Australia. His topic was "To Every Man a Nation". Rev. Charles Willis, famous "hippie minister" from Oakland Calif. lead a seminar on social responsibility. Director of the convention, Dr. Udell Smith, said the convention was the best one in history.

Dr. David George, assistant pastor of the First Baptist Church of Shreveport, was the speaker at the banquet Thursday night. Dr. George spoke on the relevance of belief. New BSU officers for 1968-69 were introduced at the banquet.

Baptist Student Union president is Terry Hansen, a sophomore, majoring in English. Vice-president is Jacquie Hunt, a sophomore physical education major. Serving as secretary is Barbara Pugh, a sophomore majoring in social studies. Working on public

relations is Karen Newton, a sophomore elementary education major. Sandy Bamburg, program chairman, is a sophomore, majoring in elementary education. Social chairman is Betty Estes, sophomore elementary education major.

Plans for other BSU programs this year include a visit from Don Hammon, who will talk about summer missions; a film from the Police Department on drugs and LSD; and a panel discussion on "Christian Role in Politics."

The director of Baptist Student Union in Shreveport is Robert Childress.

Lowe Reports For The Times

Sharon Lowe, junior journalism major, is working as the '68-'69 LSUS correspondent for The Shreveport Times, under the direction of Margaret Martin, education reporter for The Times.

"My job is reporting all student activities, club projects, formation of new organizations and routine administration stories," explained Sharon. She also sets up picture schedules. The more important administration stories are covered by Margaret Martin.

If the club publicity chairmen or anyone else has any news to publicize, Sharon can be con-

Kruger Addresses Young Reps.

Fred Kruger, Director of College Youth for Nixon activities in Louisiana, was the guest speaker at the Oct. 10 meeting of the campus Young Republicans.

Kruger, a graduate student in political science, told the group "there is no way that Wallace can win this election. At the most he can receive the electoral votes of seven or eight states. When it comes right down to the wire, this race is between Nixon and Humphrey."

Kruger added, "It would be a national tragedy if Humphrey is elected, and this is what we, as Young Republicans, are fighting against. We have an excellent choice in Richard Nixon, he is the only candidate running that can provide this country with the leadership it needs."

An earlier meeting and "Republican Party" held on Oct. 4 Lee Payne was elected vice-president of the Young Republican organization. Payne is an international Lieutenant Governor of Circle K, and is a sophomore in pre-med.

At the same meeting, YR President Dave Griffith announced the appointment of Debbi Smith, as Art Director of the organization. She was also appointed Social Chairman for the YRs.

An Executive Committee de-
Continued on page 4.

tacted through the Almagest. Notes or stories for Sharon may be posted on the staff bulletin board in Lib. Room 277B.

CIRCLE K SPONSORS for the coming year are Sandra Pruitt, sophomore psychology major; Kennie Kitchens, sophomore pre-med major; Janet McNiece, sophomore History education major; and Sandy Bamburg, sophomore education major.

Davis Will Manage Circle K Projects

Parker Davis, sophomore civil engineering major and project chairman of Circle K, announced plans for a car wash scheduled for Saturday, Oct. 26 to raise money for new American and Louisiana flags for LSUS. No definite location for the car wash was decided.

At the same meeting, the Kennel Club committee was se-

Dean Appoints Rasch Editor

Jeri Lyn Rasch has been appointed editor-in-chief of the 1968-69 BAGATELLE by Dean Donald E. Shipp in accordance with the recommendations of the Publications Committee of the Faculty Council.

Jeri, a sophomore pre-medicine major, was club section editor last year. She has the distinction of having headed the Dean's list with a perfect 4.0 average.

To assist Miss Rasch will be Assistant Editor Linda Spence, a sophomore science major. Linda will contribute experience acquired as faculty section editor of last year's BAGATELLE.

Sophomore staff members will be Lynn Sullivan, a Spanish major and Johnnie West, a science major. Miss Sullivan was co-editor of the class section and was responsible for artwork last year. West, editor-in-chief of last year's BAGATELLE, returns as a staff member in very helpful capacity, according to Mrs. Nancy Sexton, yearbook advisor.

Photographers this year are Robert S. Barnwell, III, sophomore business administration major and Terry Hansen, sophomore English major. Mr. Barnwell, treasurer of GSO, Almagest typist and sophomore history major.

lected to begin a project for the Shreveport Kennel Club. Committee members are chairman Randy Davidson, sophomore pre-med major; David Hollis, freshman architect major; John Griffin, freshman oceanography major; and Bubba Talbert, sophomore pharmacist major.

Circle K members will sell advertising space to local merchants in the Kennel Club's catalog for its dog show in March. Commissions received from the ads sold will purchase a tractor for the Hopi Indian Mission in Veracruz, Mexico.

Lee Payne, sophomore science major and past Circle K president, will head a divisional training conference to be held for all members Oct. 27 at Northeast Louisiana State College in Monroe.

Lee, lieutenant governor of division two, which includes Northwestern Louisiana State College, NSC, Louisiana State College, Centenary College and LSUS, is working on the district convention to be held April 18, 19 and 20. LSUS Circle K will host the convention.

Payne represented the University at the International Convention of Circle Ks in Philadelphia, Aug. 18-25.

Sandy Pruitt, a sophomore psychology major and assistant editor of the Almagest, was added to the list of Circle K sponsors. Previously chosen sponsors are Sandy Bamburg, vice-president of Gamma Sigma Omega, program chairman in BSU and a sophomore education major; Kennie Kitchens, vice-president of Lambda Sigma Upsilon, GSO members and a sophomore pre-med major; and Janet McNiece, treasurer of GSO, Almagest typist and sophomore history major.

BSU OFFICERS (from left) Betty Estes, sophomore elementary education major, secretary; Terry Hansen, sophomore English major, president; and Sandy Bamburg, sophomore education major, program chairman; discuss future programs with Dr. David George, assistant pastor of the First Baptist Church of Shreveport; and BSU member Cheryl Beckerdite, sophomore education major.

Continued on page 4.

WILL YOU Help?

This is the year that LSUS needs to grow up. We have here an excellent faculty and the chance to improve our book knowledge.

But knowledge from books is not the only part of a student's college life. And in the non-academic areas LSUS needs to grow up. It should not be grades 13 and 14.

The people who will have the best opportunity to help this school this year are those elected as SGA officers. They have the opportunity and responsibility to give the school true college spirit.

There are several ways this could be done. SGA should look into the possibility of starting a Free Speech Alley, as the Baton Rouge campus has. The Alley is a place used for the peaceful discussion of anything that the students want to discuss---politics, teachers, administration policy, or the food in the snack bar. The Alley has proved to be a stimulating addition to the college life of the Baton Rouge students; perhaps it would be good for this school too.

Speakers always add to the intellectual life on any campus. Those who are elected to SGA office should look into starting a speaker program for LSUS.

An energetic SGA could bring a debate forum and educational films to the campus. SGA could also aid in the expansion and development of our service groups--for every college has an obligation to the community.

If our SGA is to become dynamic, it must have leadership and student backing. SGA election's will be coming up very soon. If you are interested in working for LSUS, or think you know someone who would make a capable leader, start doing something about it. To qualify for office the student must have a petition signed by 40 of his classmates asking that his name be put in nomination for a particular office. The student must not be on probation of any sort, and must be classified in the class in which he is seeking office. The deadline for filing is Nov. 11.

Once the petitions are filed, students who want to run must pass an examination on parliamentary procedure. The students who meet these qualifications will then be certified for office.

But the candidates aren't the only ones who need to work. If you think that a particular student will make a good officer, you should be willing to work with and for him, as campaign manager, or poster manager.

LSUS needs student leadership that is energetic, imaginative, and interested in LSU. Let's help LSUS grow up.

—Sharon Lowe

ALMAGEST

The ALMAGEST is an official publication of LSUS. All editorial views expressed within are the opinion of the writer alone and should not be construed to represent administrative policy. The purpose of the ALMAGEST is to inform the students and faculty of news concerning LSUS.

Tara's Tidbits

Mrs. Marilyn Coil, English instructor, will show her slides of last summer's European trip at 1 p.m., Oct. 25 in the Science Lecture Auditorium. Everyone is invited.

The language lab is open Monday-Friday from 8 a.m.-3 p.m. It is also open from 6:30-9 p.m. Lab will be open during the mid-semester examination period.

Mid-semester examination period is Tues. Oct. 29-Tues. Nov. 5. Exams will be given during regularly scheduled class periods. Grad reports will be mailed to the students' home addresses Wed. Nov. 13, according to Mrs. Phyllis Tyler, assistant to the registrar.

Two pair of eye glasses, one Stonewall High School class ring, and one lady's pendant watch on a chain have been found. If you have lost any of these items, contact Mrs. Dorothy W. Cox, secretary to the counselors.

Almagem staff apologizes to any student or faculty member upon whom we might have erred in the first issue. We also apologize to those of you whom we might err upon in the future.

Guest editorials and letters-to-the-editor may be turned in Lib. Room 277B. All submissions must be signed and in good taste.

You And The IBM

"More work with less people in shorter time," says A. B. Cooksey, LSUS data processing manager, as he sums up the purpose of the University's IBM computer system. Assisting Mr. Cooksey in the care and management of the computer are Agnes Braun and Nina McConnell, key-punch operators, and Mr. Jerry Toupes, computer operator.

The IBM 360, model 20 computer is in Room 119 of the Science Building hidden behind the warning "Authorized Personnel Only." IBM 360 is rented by LSUS on a monthly basis so that the computer system can grow with the University.

Presently a card system composed of three units is being used. The units make up a central process unit which relates the instructions to the rest of the computer, a multi-function card machine which reads and punches the cards and the printer unit which prints the reports. This model computer can receive additional units without having to change the entire system.

Immediate uses of the computer include preparing payrolls, vendor payments, grade reports, grade averages, and overdue booklists. The computer is also used in the IBM courses. Students are allowed to write sets of instructions called a program for the computer. Cooksey and his assistants then run the program through the computer and return the results to the student. It is hoped that there will be more student usage of the computer system in the future as computer science is fast becoming a valuable asset to our country's growth. All types of computers are used in every kind of business, in manufacturing and processing, in our national defense, in our government agencies and in scientific research. Who knows, maybe one day in the future, computers will be writing newspapers or teaching school. Who's gonna argue with a Machine?

Do You Know That?

How much do you freshmen know about your school? Are you aware of all the organizations available in which to participate and their accomplishments? Would you recognize your dean if he said "Hello" to you? Do you know how the clock in the snack shack or the flags on the flag pole got where they are? Do you know what the grade average is for the Dean's List?

Your University began late, on Sept. 28, for it was not totally built on the scheduled date. The first fall semester began with 807 students. To start the school off properly the faculty and several students from the service organizations, Gamma Sigma Omega and Circle K, held an open house for the community. Among the guests who came was John A. Hunter, president of the University.

Who is your dean? Well, before being named to the position of Dean of LSUS, Dr. Donald E. Shipp was professor of Education and Assistant Dean of the College of Education on the LSUBR campus. He is the author of 28 articles in state and national magazines such as the "Journal of Educational Research," the "Peabody Journal of Education," and the "Arithmetic Teacher."

Also he has authored or co-authored 11 books and booklets. He often walks through the halls, greeting those he meets with a friendly "hello" or smile.

Have you thought about making the Dean's List? To do so you'll need a 3.5 average. For notices on this, check "Tidbits" in each issue of the ALMAGEST.

Do you know that the library has an almost complete collection of the original books containing the Army and Navy Civil War records? There are only a few original productions of this collection in existence.

What clubs are available to you? If you've read the bulletin board or seen the membership-drive booths, you should be familiar with the clubs. But if not, they are: GSO, Circle K, Agriculture Club, Baptist Student Union (BSU), Biology Club, Young Republicans, and Speech Club, up to now.

GSO supplied the snack shack with the clock, and Circle K donated the flags to the university. GSO has done such things as plan an Easter program for the Shriner's Crippled Childrens' Hospital, help in registration, serve refreshments for the faculty and students, and make a monthly calendar displayed in the halls.

Circle K has done charity work for the Holy Angels, and the Louisiana Nursing Home, supplied (from various members) blood for the Shreveport Blood Bank, obtained the few plants and trees we have, and more. The Bulletin of Circle K International selected the LSUS club as Club of the Month for April-September of '68.

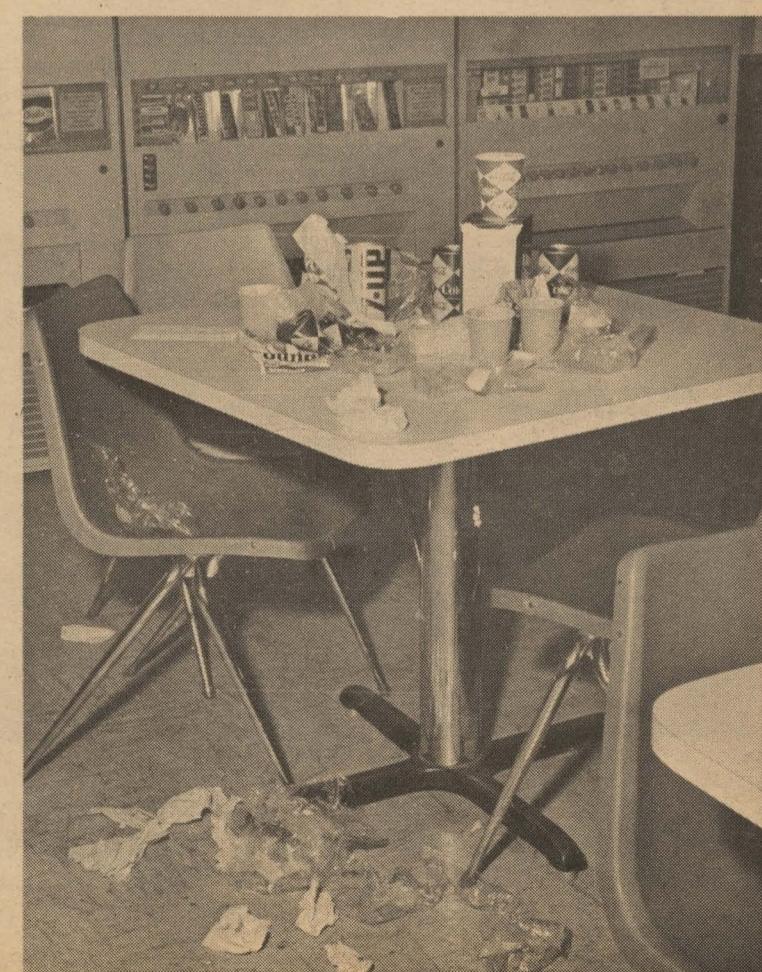

Do you know who the '67-68 Student Government Association officers were? Carlton Murray was elected president; Jacquie Hunt, vice-president; Debbie Smith, secretary; Bubba Talbert, treasurer and Madeline Bolin, representative.

Do you know that Mr. Humphreys' (history instructor) first name is Hubert? Do you realize that although LSUS had only one day off for Mardi Gras last year, this year we will have two days off? Do you know that the Library Building was built with the plan in mind to tear it down? (The reason is that in the future when LSUS expands, the inner walls may be torn down easily to enlarge the area for books. At this time the building will not have classrooms in it.)

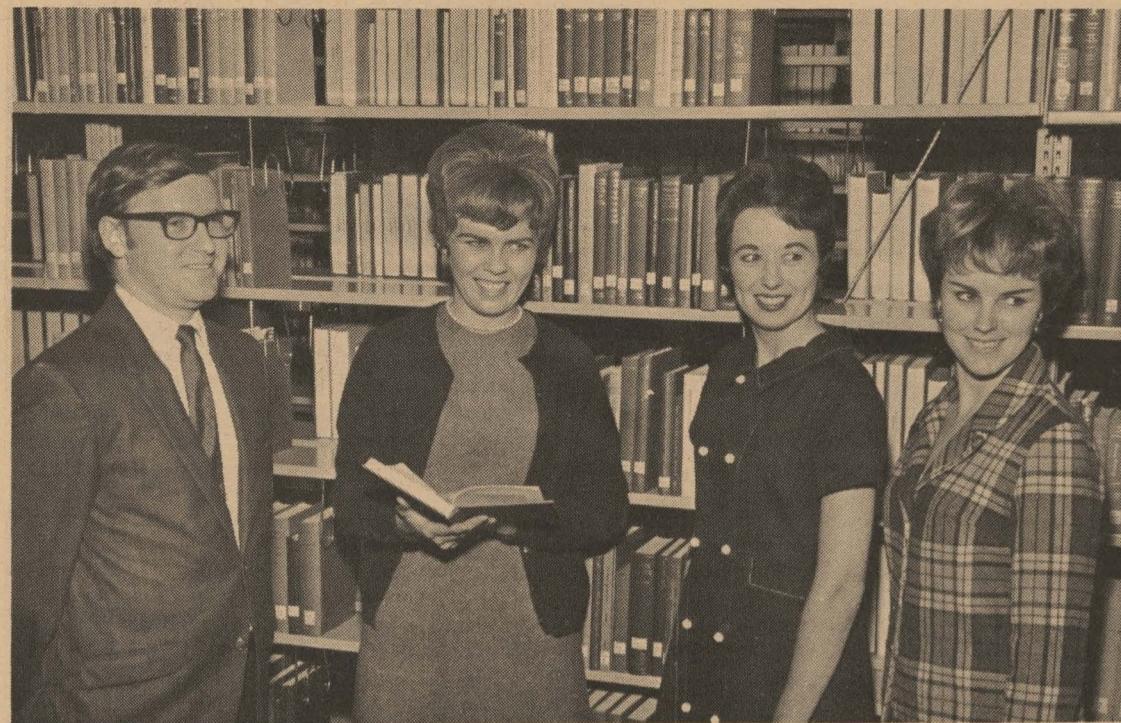

If these matters are news to you, I suggest you look up some past editions of the ALMAGEST in the library and read the previous news stories. If you want to know more about your University, then read the paper when it comes out. If you're still curious about things, ask questions. The dean, faculty members, and other students, will be able to supply most of the answers.

But whatever your means of information, investigate these things you don't understand. Take an interest in your school and it will be more interesting.

—Tara O'Brien

Nuff said?

NEW ENGLISH FACULTY MEMBERS (from left) Robert E. Bishoff, Dr. Mary Ann McBride, Mrs. Nancy Hutson and Mrs. Patricia Lewis review the English literature section of the library.

Personalities:

Speaking Out

By Donna Jo Dawkins
and
Tara O'Brien

"Boy--when they said there was a world out there--they weren't kidding! Not only land, but a whole world of people!" This is how Lynn Sullivan, a sophomore majoring in Spanish, sums up her summer excursion in Mexico. David Griffith, a sophomore majoring in pre-law, also spent the summer "discovering America--four weeks off the ground."

"I'm a strong Nixon supporter," says Dave. "Being president of the Young Republicans at LSUS, I'm up to my elbows in work trying to organize the club here."

"I went to summer school at LSU in Baton Rouge this summer. It was great working in elections for their Summer Republican Club."

When asked how he felt about the fact that Wallace appears to be carrying the state, Dave replied: "Well, any American can believe in what Wallace says, but what he says and what he can do are two different things. This makes the whole situation look different when you think of it this way."

"I've been an avid Nixon supporter since he was vice President. I can remember being out at the fair with my parents wearing an Ike' button."

"A lot of people seem to think LSUS is a high caliber high school," David said when asked what he thought about the University. "It's as much of a university as any other school. In the future I hope to see LSUS at least as large as LSU in New Orleans."

"The faculty seems to have a more personal interest that isn't found in a bigger university. This is great. The whole school is great."

"People seemed overjoyed to help me anywhere I went," Dave noticed as he visited New Orleans, Buffalo, New York City, Philadelphia and many other places... "skiing in Montana--seeing the Empire State Building from the top and bottom."

Dave is employed in the language lab and is a member of the Biology Club.

"I'm trying to decide between LSU in Baton Rouge and the University of Miami for next year."

Lynn is also employed in the language lab, and is a member of GSO and on the BAGATELLE staff.

"I don't know what it was that was so great about Mexico City. I guess it was the atmosphere--happy and friendly. I didn't have time to worry about petty things like I do at home."

"Traveling is just wonderful! Everyone should travel. It broadens your outlook on life. Poverty is at its extreme in Mexico. Its population is seven and one half million. Seeing all this made me appreciate what I have."

"I didn't even have water for the first week--not even to wash with! And the Senora was stingy with her food. I was called flaca down there--that's Spanish for skinny. I had a piece of meat 6 inches wide for a meal and that was it. The Senora always had orange juice, though, but never anything to eat."

"Popularity was important to me in high school, and Shreveport was my immediate world. Now I know there are more people in the world. People who are like my friends and me with their own little problems. I'm so different now than when I was down there. I feel more self-confident. I wish I was down there now, the more I talk about it."

What do you think of LSUS? "I can understand why people would think it's like high school because it's without the social activities of college."

How do you like your courses? "Well, I like Spanish, naturally. But I also enjoy English because we're studying short stories, and the psychology and people and life of these stories interest me. These stories deal with the experiences of people and that's what I'm interested in."

"Of the books I've read recently, I especially enjoyed "Tales of the South Pacific" by Michener. I like O'Henry short stories because they have surprise endings. I guess of the authors we've read in English this semester, I like Chekhov the most, because his stories are easy to read and short."

Have you read "Rosemary's Baby?" "Yes!" What do you think of it? "Weird! It's definitely not the kind of story to read at night, especially alone at night."

"Tell 'em about piano, too. Most people think 30 minutes practice-daily, boring and dull. But what's important is to have a good teacher that's concerned. Piano is a real means of enjoyment for me now that I've had three bad teachers and finally one good one. I play while others watch T. V. It's really a wonderful thing."

You know, your car is rather unusual? "Yes, after a whole year of driving a new '68 Volks, I've run into a streak of bad luck--three cars. And in order for Daddy to get the most enjoyment out of my mistakes, he wrote, 'Uh Oh' on each bump, no dent. Dents go in and bumps go out. I forget, you see."

What do you think about working on the yearbook? It's a real experience, because it's a responsibility and that's good for anybody."

Where will you go to school after this year? "That's something I'd rather not think about. But right now I'd tell people the main campus, but it's not where I really would like to go. I'd like to be an exchange student, like in Madrid, actually. I dream a lot."

"But you know, I really want to go somewhere else again, like last summer. If there is anyway at all I can, I'm going somewhere next summer, too. Traveling is a far greater education than any book. Don't you agree?"

Faculty Facts: Part 1

English and Speech Department

The ALMAGEST has chosen half of the speech and English departments to feature as faculty personalities for this issue.

Mrs. Nancy Hutson, English instructor, is a native of Shreveport. She attended Byrd High School, received her B.S. degree from Centenary College, and her M.S. degree from the University of Arkansas in Fayetteville. She is presently doing advanced graduate work at Louisiana Tech.

Before her appointment to LSUS, Mrs. Hutson taught freshmen English at Oak Terrace Jr. High School and junior English at Woodlawn High School. At Woodlawn, she taught the rapid learner classes which she enjoyed.

Last summer Mrs. Hutson and her husband visited the Hemisfair and also camped out in the Smokey Mountains and Blue Ridge Mountains.

Her hobbies include reading and all water sports. She taught swimming lessons at the YMCA. She was also active in drama, speech and debate in high school and college.

Mrs. Hutson said, "I have been in school every summer since I was 14."

Robert E. Bishoff, Jr. is a new instructor for English 1B, 1C and a course in American literature. He received his B.A. degree from Centenary College his M.A. degree from Highland University in Las Vegas, N. M.

Before coming to LSUS, Mr. Bishoff taught English at Panhandle State College in Goodwell, Okla.

In his spare time he likes to paint and water ski. He reads all the comics, but doesn't have a favorite cartoon character. Steak is his favorite food.

Patricia T. Lewis came to the University from Texarkana

where she taught at Texarkana Junior High School. She teaches English 1B and 1A.

Both her B. A. and M.A. degrees were received from Louisiana Tech where she was a member of Phi Kappa Phi, Alpha Delta Kappa, and Kappa Kappa Iota, honorary societies.

She taught at Homer High School before going to Texarkana. Homer is her hometown. Mrs. Lewis enjoys writing, seafood, and classical music.

Her favorite quotations are "Come what, come may, time and hour runs through the roughest day," by Shakespeare; and "A think of beauty is a joy forever," by Keats.

Mrs. Lewis' pets include a tank of tropical fish and her three-year-old son, Scott.

Dr. Mary Anne McBride sponsors Gamma Sigma Omega, the girls' service organization.

In 1959 she received her BA degree in speech from Louisiana Tech. She then attended LSU where she received her M. A. degree in English in 1965 and her PhD degree in August, 1968. She was awarded a National Defense Education Art Fellowship in 1967.

Dr. McBride has also taught at Rusheon Junior High School in Bossier City and at LSU in Baton Rouge where she was a graduate assistant from 1964-1968.

She is a member of Phi Mu and Phi Kappa Phi. She is listed in Who's Who on American College Campuses.

She enjoys cooking, cats and watching sports on television.

Asked about LSUS, Dr. McBride said, "I like it. I am very impressed with the library."

STUDENT PERSONALITIES Lynn Sullivan, sophomore Spanish major and David Griffith, sophomore pre-law major, assist students in the language lab.

Texas Student Speaks To Biology Club

The Biology Club initiated its fall programs Sept. 25 with a presentation of a research paper by Benny Raimer, a senior student in the life sciences at East Texas Baptist College in Marshall.

Also, new officers for the coming year were elected at the first meeting of the Biology Club Sept. 18.

Kennie Kitchens, sophomore pre-med major, was elected vice-president and Randy Davidson, sophomore pre-med major, was elected treasurer.

Other officers are David Warren, sophomore pre-med major, president; and Maria Garcia, sophomore pre-med major, secretary. The organization is sponsored by Mrs. Dorothy Hubble, Biology instructor.

Amendments were made to the club constitution to allow for

Theater Director Speaks to GSO

Mrs. Margaret Mary Young, technical director of the Little Theater, spoke to Gamma Sigma Omega about the theater at the GSO Oct. 15 meeting.

"It was very important that the prospective members attend this meeting. They got a better understanding of the organization, its purpose and projects. It gave the active members a desire to meet the pledges," said Sandy Pruitt, president of GSO.

The acting board of directors will soon vote on the prospective members. The names of those accepted by the membership committee will be announced in the ALMAGEST. Members are chosen for character and service potential. Each member is expected to attend all meetings and to take an active roll in club projects.

Future plans include visiting Holy Angels School, providing a devotional for the Louisiana Nursing Home and working with the counselors office on school projects.

a change in meeting dates. These dates will be announced later. The colors of the organization were amended to scarlet and white.

In addition to his academic work, Raimer is active in extracurricular affairs as president of the Student Government Association.

Last summer he participated in an undergraduate research program at the University of Arkansas. The program is financed by the National Science Foundation to encourage interested and qualified students to participate in summer research projects. His problem involved a study of the chromosomes of an isolated population of the small mammal, *Sigmodon hispidus*.

The presentation included a summary of the technique used in preparation of the tissue for study as well as photographs of the chromosomes. The purpose of the study was to establish a karyotype (sequential arrangement of the chromosomes) for this isolated population. This will provide a basis for the comparison of karyotypes of future populations in that area in order to detect recent chromosomal mutants.

Other programs of interest to students in the biological sciences have been planned for the year. They include speakers from many of the different branches of applied science.

Dr. A. M. Hand, pathologist, will speak to the organization and show slides Nov. 6.

Plans for two field trips have been discussed. A two day trip to Hodges Gardens to collect plant specimens is being planned. During the semester the group intends to collect marine biological specimens at the Ocean Springs Experimental Laboratory in Ocean Springs, Miss.

All students who have an interest in the biological sciences and who are taking or have taken a biological science course may join. Application blanks can be obtained from any club member.

DAVID WARREN, Lambda Sigma Upsilon president; Benny Reimer, guest speaker from East Texas Baptist College and Mrs. Dorothy Hubble, Lambda Sigma Upsilon sponsor, discuss slides of chromosome karyotypes.

Payne Heads Nixon Council

State Youth for Nixon chairman Steve Plauche of Baton Rouge recently announced the establishment of the Youth for Nixon Advisory Council, at LSUS.

To serve as Chairman is Lee Payne, International Lieutenant governor of Circle K. Serving as his co-chairman will be Sandra Pruitt, president of Gamma Sigma Omega and assistant editor of the ALMAGEST. Also named to the committee were Eddie Grounds, president of Circle K; Dave Griffith, president of Young Republicans; and Tara O'Brien, editor of the ALMAGEST.

The purpose of the Advisory Board is to work with the Young Republicans on campus in organizing and directing youth activities for the Nixon-Agnew campaign.

DEAN APPOINTS
Continued from page 1.

well returns for his second year as BAGATELLE photographer.

Freshman staff members will be Mabria Brannon, Susan Holtsclaw, Donn Kay Pease, Georgia Scheen and Claudia Sparks.

Mrs. Sexton feels that last year's BAGATELLE was very good, considering she and all other staff members (other than Johnnie West and Sue Anderson) had no previous experience in yearbook work.

The '68-'69 BAGATELLE will be expanded to 128 pages—more than in 1968, according to Mrs. Sexton.

Students interested in being considered for staff positions should contact Mrs. Sexton in her office, Lib. 277.

With photographers Barney Barnwell and Terry Hansen leaving next year for another campus, Mrs. Sexton stressed the need for any interested freshman who could train as a photographer.

Requirements for working on the yearbook are that a student must have a "C" average for over-all college course work. Johnnie West says that staff members work about eight to twelve hours per week.

Selection of BAGATELLE beauties will be done in some, as yet, undetermined way by the student body.

Dec. 1 is the tentative deadline for the faculty and student class section.

Staff members have been

KRUGER ADDRESSES
Continued from page 1.

cided on several projects for the organization, Oct. 2.

The first project provides the three local Nixon-Agnew headquarters with volunteer workers. Tommy Sallee was appointed by Griffith to the Recruitment Chairman for the two Shreveport headquarters on Texas Street and Fairfield Avenue;

and YR Treasurer Bob Robinson was appointed to head recruitment effort for the Bossier headquarters. Also adopted was a project to aid the senior Republican Party to man the booth at the State Fair, a project designed to give the public the opportunity to ask knowledgeable Republican leadership questions about the stands of the GOP standard bearer.

Griffith told the committee that Larry Johnson, vice-president of Circle K, has consented to serve as general recruitment director for the organization. He will serve to coordinate the work of the various project chairman of the organization.

At the same time, Griffith appointed Sharon Lowe, junior journalism major, to serve as Activities Chairman of the YRs.

The next meeting of the organization was Thursday, Oct. 17.

PROSPECTIVE MEMBERS Linda Myers, freshman Art major and Madonna Ball, freshman business major, fill out applications for membership in Gamma Sigma Omega with the help of Diane Fong, chairman of the membership committee.

meeting Wednesday nights in Lib. 222. The BAGATELLE office is located jointly in Lib. 277.
